Principal

During 1944-45, our school has attempted to carry on our regular program and also to cooperate in the various war times activities. We may be proud of our Junior Red Cross campaign and other war time activities. Our plays, concerts, circus and athletic events have also been unusually successful. It is our hope that the 1945 annual will preserve for you some of the experiences and pleasant memories of this year at South.

Spring

By Arlene Terry, 9A108

Spring came through the window
And waved her dainty hand;
Spring, a soft fair lady,
Spreads cheer throughout the land.

The birds sing in the treetops
And help to spread the cheer,
That this gallant lady
Brings with her each year.

Yesterday my heart was heavy,
Today the burden's gone;
For spring touched my heart lightly,
And filled it full of song.

Cheer Leaders

Maryjean Allan, Sponsor

Lois Miller, Betty Meyer, Ann Young, Don Whiting, and Bill Immergluck made up the cheer leader team; all members received letters. In order to be eligible for a letter, a cheer leader had to be at all home games, half the games at other schools, and attend practice once a week. These people worked out all motions to go with their yells and made up some of their own yells. They worked at all basketball and volleyball games and some of the soccer games. This group has had no previous experience but everybody intends to be a cheerleader next year.

My Hobby

My hobby is collecting and studying small reptiles. So far my collection has not extended much beyond two turtles. I am trying to figure out whether they are terrapin or mud turtles. I have also been studying snakes, lizards and tree frogs and have several interesting books on the subject. I am planning to send away for a painted terrapin and a scarlet king snake and others.

Small reptiles are very easy to keep since they require very simple food like bugs, flies and frogs.

Cages can be very easily made with packing boxes and screening.

I hope to inlarge my collection and include poisonous and harmless snakes from all over the world.

Red Cross Rhapsodies

The "Red Cross Rhapsodies" was presented in December to raise money for the Junior Red Cross.

Nan Stevens was mistress of ceremonies.

The acts included the girls' and boys' elective music classes singing "Roses of Picardy," "Old King Cole," "Over There," and "The Army Air Corps Song."

Mervin Richardson and Sandy Spence mystified the audience with tricks of magic.

"Stormy Weather," a trumpet solo, was played by Nan Agricola.

During the intermission Jane Safford, dressed in a nurse's uniform presented a tableaux which portrayed the needs of the Red Cross.

Bob Bodric played "Nola" on his clarinet to start off the second half of the show.

A hilarious comedy skit entitled the "Lighthouse Keeper's Daughter" was enacted by members of the ninth grade auditorium class.

Tom Rork played some popular songs on his accordian.

The band concluded the program by playing "Our Director," "Officer of the Day," and "Victors' March."

The Christmas Program

"The Christmas Story" in tableau and the song was presented to the students in an assembly and to the P.T.A. through the combined efforts of the vocal music and auditorium departments under the direction of Miss Giere and Miss McWethy. Ruth Haist was accompanist.

The music group came into the auditorium singing "O Come All Ye Faithful."

The first tableau was entilted "The Prophecy." Bob Klump, Richard Crooks, David Holland, and Kenneth Rands, sang "O Little Town of Bethleham."

"The Annunciation" was the second tableau with solos sung by Bonnie Loving and Sally Mahoney.

"The Nativity," the next tableau was heralded by the combined music groups singing "Silent Night" and the girls alone singing "Bring a Torch Jeanette Isabella."

The two other tableaus, "The Announcement to the Shepherds" and "The Coming of the Wise Men" were then presented and the music groups sang "Angels We Have Heard On High," "Rise Up Shepherds and Follow," the "First Noel," "March of the King,"and "We Three Kings."

The singing group recessed to "Joy To the World."

Pupils participating in the tableaus were W. Frosch, S. Darling, H. Pope, L. Weinberg, C. Waltz, M. Short, H. Lazlo, M. Carlisle, B. Anderson, D. Simmons, R. Quigley, J. Anderson, and J. Laatch.

W. Case, K. Lange, and K. Somers sang solo parts.

The singers included: M. Albrecht, M. Baldwin, N. Ball, M. Culbert, C. Dirker, C. Fisher, J. Formell, D. Goodeman, J. Griese, M. Hammond, V. Harshman, P. Hinkle, C. Jaquith, R. Kimmel, M. Mann, D. Red Cross

Throughout the year South has given outstanding support to the various Red Cross campaigns. We started out the year by turning in $821.74 to the American Junior Red Cross with 100% pupil participation in the school. Our school led all public and parochial schools in total contribution. A dance, "Red Cross Rumpus", and a program, "Red Cross Rhapsodies", were also presented for the benefit of the Red Cross.

In October the home rooms prepared 30 Christmas boxes and the art classes, with the help of the printing department, made 1200 menu cover and 1100 Christmas cards.

Soon after Christmas letters began to come in from England acknowledging the boxes.

The metal shop, wood shop and sewing classes produced 500 ash trays, 50 game boards, 40 pairs of slippers, 125 utility bags, 30 housewives.

Altogether it has been a busy Red Cross year at South but we are glad to give our support to such a worthy organization.

Year In Review

ACTIVITIES

Dear Diary,

Well, another momentous year has passed at South. I still remember that September day—so many new faces, twelve new teachers, and the hurry scurry to get to new classes.

It wasn't long before the soccer and volleyball practice began. The President's Council got under way in October with its newly elected officers for the first semester. Pupils turned out in very fascinating costumes at the annual Hallowe'en assembly.

In November South brought home both the soccer and volleyball championships. Our school led all public and parochial schools in total contribution in the Junior Red Cross Drive, turning in $21.74 with 100% pupil particapation.

The Sixth War Loan Drive won the attention of South pupils in December. Pupils posed for the "Birdie" for annual pictures. An enjoyable Christmas assembly was presented and then came vacation.

Back after vacation pupils soon began the new semester. The basketball season opened with both teams off to a fine start. South turned in $89.70 to the Infantile Paralysis March of Dimes.

Our dramatic talent gave their all in the all-school play, "Lay Down, You're Dead" in February. Two more championships were added to our record when both the lightweight and heavyweight teams won. The award assembly honored outstanding students. A Valentine dance, "Cupid's Capers," sponsored by the Service Club was presented. Second semester officers were elected for the President's Council.

Huge crowds were entertained at South School's fourteenth annual Spendless and Seemore circus in March. The four championship teams were entertained at a "Parade of Champions" dinner.

The vocal department gave a fine performance in the vocal concert in April.

Attention was turned to the instrumental con[illegible] and the 9A Banquet in May.

In June the ninth graders bid farewell and [illegible] eighth graders looked forward to next year.

It wasn't long before the soccer and volleyball practice began. The President's Council got under way in October with its newly elected officers for the first semester. Pupils turned out in very fascinating costumes at the annual Hallowe'en assembly.

In November South brought home both the soccer and volleyball championships. Our school led all public and parochial schools in total contribution in the Junior Red Cross Drive, turning in $821.74 with 100% pupil particapation.

The Sixth War Loan Drive won the attention of South pupils in December. Pupils posed for the "Birdie" for annual pictures. An enjoyable Christmas assembly was presented and then came vacation.

Back after vacation pupils soon began the new semester. The basketball season opened with both teams off to a fine start. South turned in $89.70 to the Infantile Paralysis March of Dimes.

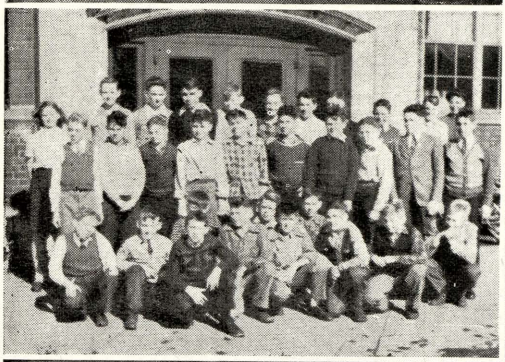
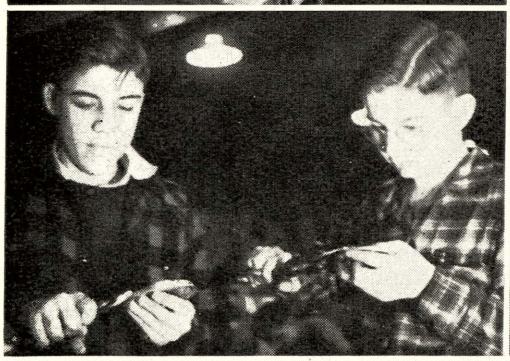
In June the ninth graders bid farewell and the seventh and eighth graders looked forward to next year.



ACTIVITIES



ACTIVITIES

Service Club

Nellie Miner, Sponsor

The Service Club of 1944–1945 has enjoyed a busy year. Some of its activities included: assisting elementary teachers, working at the War Board Office, organizing material for the Red Cross Drive, assisting with the Y.W.C.A parties, "running off tests" for teachers, helping in office— answering telephone, filing records, taking charge of victrola record file; checking halls daily for paper, taking charge of bulletin boards and lost and found articles, sponsoring a school party, handling milk in girls' gym, and helping at Town Club.

Each member must have 20 hours of service to the school, outside of class time, in order to receive an "S" pin. Those who received pins first semester were Ann Glass and Wilhemetta Fritzler.

First semester officers included: Marry Buckingham, president; Joyce Shaw, vice-president; and Nan Agricola, secretary-treasurer.

Second semester officers were Roddy Quigley, president; Joyce Shaw, vice-president; and Mary Hartsell, secretary-treasurer.

Monitor Staff

In the school year 1944-45 South School monitors did a very fine job in keeping traffic moving in our halls.

For the first semester the monitors chose Ruth Ann Haist for their chairman. Ruth proved to be successful so she was re-elected for the second semester. For the first half of the year, the secretary was Bill Immergluck and the last half Nan Stephens held the office.

To be a monitor you must have a "B" average in both citizenship and scholarship; you also must be dependable, courteous, serious, and business-like.

In order to get an "S" pin you must serve as a monitor for twenty consecutive weeks. The monitor slogan is "Help Us To Help You."

The following pupils are eligible for pins: Janice Hackett, Ruth Haist, Fred Feit, Nancy Stephens, Jim Romaker, Maryon Zorn, Elaine Sperry, Bill Immergluck, Clarence Frick, Betty Lou Niederquell, Jarold Sloboda, Mary Lou Harvie, Bonnie Goodwin, Joyce Shaw, Bob Klump, Betty Schroyer, Harold Herzog, Pat Beckert, Mary Ellen Scratch, Don Forbes.

The opening spec, "The Spirit of America," was presented by each participant representing one of the United Nations.

Queen Marilyn Baldwin and her four lovely attendants, Bonnie Loving, Carol Remainder, Joyce Shaw, and Barbara Tanner entered slowly and royally. Henry Goppelt, the student master of ceremonies, was then introduced by Mr. Guy.

That jolly clown, Happy Holmes, raised many laughs from the audience with his antics and tricks.

A group of seventh grade boys presented a very entertaining acrobatic demonstration titled "Acrobatic Neophytes."

South's own clowns entertained with their funny antics.

Krieger, R. Kolhagen, N. Mikolaiczik, T. Rork, D. Tauesch, K. Wright, D. Youman, and B. Young were in the act.

Soccer

South's 1944-45 soccer team clinched the championship, by winning 4 games, losing 1, and tying 1.

This makes the tenth championship for the soccer boys since 1923.

Lightweight Basketball

The lightweight basketeers completed a season without a loss this year winning their forty-sixth consecutive game since December 8, 1941.

Heavyweight Basketball

Defeated only by one opponent, the heavyweights brought home the 1945 championship.

Volleyball

Winning the volleyball championship every year is getting to be a habit with South School girls. It is one habit we hope will never be broken. One more picture of a winning team has been added to the gallery of winners lined up on the wall of the girls' gym entrance corridor.

In 1938, our school lost a championship but aside from that loss, South's girls have won every year from 1927 to 1945.

The girls were coached by Mrs. Martha Kelly who tells us that next year's prospects look good.

Mr. Burrows, who believes in fair, honest business, refuses to have any part of Evardo's plan. When Norma Lansdowne and her daughter Kittie, who is a little terror, come visiting everything seems hopeless. The 9A Class Prophecy

As we were touring New York City we met Don Forbes who invited us to his broadcast entitled "Quips and Quotes." We thought you might like to hear the broadcast too since his program for tonight will cover the activities of former pupils of South Intermediate School. . . Now we will listen in to Don . .

Good evening ladies and gentlemen, this is Don Forbes, broadcasting from Radio City with news hot off the wire about former South School students . . . Our most amazing discovery is that Jerry White, a Bridgeport boy, has invented a bullet that will circle the earth three times. . . Broadway is delighted with Henry Goppelt's new production, "The Danville Dollies," which is overflowing with beautiful girls. Dolores Hall is starring as the leading dancer. The chorus consists of Virginia Drew, Marie Culbert, Donna Simmons, Barbara Brown, Jackie Thrasher, Marietta Ashbaker, and Marilyn McEwen. Out in the audience, opening night, was Suzanne Fernette, who left her horses long enough to see the show. . . On the dramatic side is Joyce Shaw, starring in "Romeo and Juliet". . . that wonderful Bob Dingman is Romeo.

My scouts in Hollwood find romantic Rowland Hanson playing opposite Sue Holeman in what will probadly be the top hit of the year, "Love Me."

While broadcasting the baseball game from Detroit, I saw many familar forms out on the field. Bill Dijak at first; Jerry Luther on third; Fred Leddy as catcher, (the big wolf); and Grant Dalcour out in right field. Their coach Nan Agricola, has been working the team hard these days. Still warming the bench are Bob Kimmel, Don Coven and Fred Feit.

Down Saginaw way, Harvey Muehlenbeck is running for sheriff, Muehlenbeck—sheriff they seem to go together, don't they? While on the subject of politics, Don McGregor is running for governor. . . .

Flash! Carolyn Walz now holds the record for the most divorces in the United States with Tommy Manville running a close second. Just saw David Cordingly yesterday and he is peeling potatoes for the Ritz Hotel here in New York. Dave tells me that Kathleen Bueker and Pam Price are writing the lovelorn column for the "Bridgeport Blow;" their editor Jerry Schultz thrives on the column. . .

And by the way have you heard that Betty Becker and Louis Cleveland are down Florida way raising oysters, what those South students will do! That beguiling Barbara Tanner is head illustrator for the Gerry Denzer Publishing Company. . . We are proud of our olympic swimming champion, Dick Wood. . . and have you heard Merv Richardson is the ambitious swimming coach at Arthur Hill High School now.

That's all the time I have and now I'll turn the mike over to my sponsor, Bill Collver speaking for Esquire Magazine.

SIXTH GRADE, ROOM 256

We learned many new and interesting things this year.

In arithmetic we learned how to add, subtract, multiply, and divide with fractions. We also learned how to work with decimals.

The first subject in science we studied was the hibernation of different animals. After that we studied the different insignia of the armed forces. We had an exhibit of the different chevrans, collar pins, decorations etc. in our room and later transferred it into the display cases in the hall for all of the elementary to see.

In social studies we studied about South America, and many interesting countries of Europe. We also made a log of the daily events that are happening in this war.

SIXTH GRADE, ROOM 262

During this year our room helped in a radio program. We sang three songs. They were "Battle Hymn of the Republic," "National Hymn," and "The Pledge."

Also during the year we have made lots of Red Cross things. We have made table favors, library cards and envelopes, writing portfolios, comic books, and nut cups. We also filled Red Cross boxes. We got some letters from boys and girls in England. We have started correspondence with them.

We have done lots of science. We have studied reptiles, insects, metals, and we are going to study some parts of the body.

FIFTH GRADE, ROOM 260

Interesting Things We Have Done

We have studied many different places throughout the world. Some of them are Alaska, Early Explorers, Canada and the United States.

We also studied Mexico. I brought a Mexican luncheon set, and a Mexican basket set and serving tray. We drew some very pretty Mexican pictures too.

We have learned many things about the moon and planets.

We have learned many new songs.

We have given many book reports.

Some of the children have brought German souvenirs that their brothers sent home.

FOURTH GRADE, ROOM 254

In our room we studied Belgian Congo, Baffin Island, Norway, Switzerland Netherlands, The Desert, and France.

We made a native village. We made books of the Desert and reported on the other things.

In science we studied health, leaves, and saw how water is evaporated.

In arithmetic we learned addition, subtraction, multiplication, division, and a little of fractions.

We learned how to look up words in the dictionary and put in the long and short sounds. We also learned how to divide words into syllables.

Third and Fourth Grades, Room 258

The first thing we studied was pioneers.

We made moulded and dipped candles.

We also made soap. We made the soap from hard-wood ashes.

We studied Indians and we made many things. For instance, we completed "ways in which the indians made their fires," pottery, a cradle and doll, pueblo, and tepee.

Later in the year we studied transportation.

The fourth grade studied paper, Holland, Norway, Swizterland, the Desert, the Jungle, and the cold regions.

THIRD GRADE, ROOM 162

We studied about transportation in our room at the beginning of the year. The first thing we studied was planes. We made models of Indian homes also.

We all liked to study the sun, moon, and stars.

We had an experiment on steam.

We learned to divide and multipy too.

We wrote many stories and poems.

SECOND GRADE, ROOM 158

We studied about the post office, about fires and about the police. We built a play post office. For it we bought stamps, envelopes, postmarks, and post cards and pinned on the wall. We made a Chistmas frieze and one for Easter. We did things like sing and read library books to the group. We studied about all kinds of insects, animals, and flowers.

FIRST and SECOND GRADES, ROOM 160

In our room we studied pets. We wrote many stories about our pets. We made a vacation book which we like very much. We studied about the fireman and other community helpers. We went to a real fire one day. It was fun. We have learned about adding subtracting, and telling time. We made spatter print books and learned how the world gets ready for winter.

FIRST GRADE, ROOM 152

We learned to do many new things this year. Now we can read and write and spell. We studied the farm and made farm animals. We studied the home and made a book about houses. We have had a little pet guinea pig in our room all year.

SIS Snooper

Ah! The romances that are in the air indicate love. Love, that thing that takes all your money.

I've been noticing that there's a lot of competition between Norma Stokus and Carolyn Waltz. Johnny Metzger, the bashful boy, is the reason.

We all know that Johnny Lee expects to go almost to heaven with Nancy Agricola. Maybe they are going to listen to Gabriel blow his horn for a change.

Larry Duwe and Joyce Shaw--ah-h! We are wondering what Arthur Hill holds for Betty Henkel and Herb Stone. They been wearing their hearts on their sleeves for a year.

In our eighth grade division we wish to report Royal Burnell can't make up his mind between Marjorie Beuthin and Marlene Trier. Paul Beach and Mary Stevens are still dear friends.

Writing this column was a task
How we did it do not ask.
We worked all day and evenings too
And if you ask us, it's still corny.

SIS

V . . . —

We suppose you've been wondering who has been writing Sis Snooper. Well, we passed it around this year; sometimes one of the girls wrote it and sometimes one of the boys. Several times, this time is one of them, we all wrote it together.
